**Date:** May 22, 2018

---

#### **Update**

Investigation revealed that the mother was in the living room with the toddler, who was playing with the dog. For unknown reasons, the dog bit the toddler in the head. Other children in the home came to assist when the mother began screaming.

The toddler was treated on scene by Hernando County Fire Rescue then transported to a local trauma center for advanced care.

Physicians advised the toddler had multiple puncture wounds and two skull fractures. The wounds were not listed as life-threatening, and the toddler is expected to make a full recovery.

The dog was reported to be a Chocolate Lab, senior, male. The dog has been quarantined at Hernando County Animal Services (HCAS).

Family members stated that the dog belongs to the toddler's grandmother and that the dog was obtained from HCAS within the last several months. Upon obtaining the dog from HCAS, authorities there told the family that the dog was not aggressive to people, only to other dogs. Family members also stated the dog has not shown any signs of aggression since they have had it.

The child suffered traumatic injuries as a result of the dog bite.

Hernando County deputies and Hernando County Fire Rescue responded to the scene. The child was treated on scene by Fire Rescue, then transported to a local trauma center for advanced care.
