1. Locate where you live and work on the map.

2. If you are in an evacuation area, or live in a mobile home, you MUST EVACUATE regardless of its location in Hernando County.

3. If you are in a mandatory evacuation area, or live in a mobile home, you MUST EVACUATE regardless of where you are located in the county.

4. If you must go to a public shelter, use your county evacuation orders, regardless of where you are located in the county.

Note: All persons living in mobile homes/RVs must evacuate for all mandatory evacuation orders.

Mandatory evacuation orders are a violation of state and local laws.

Failure to obey evacuation orders is a crime.

Emergency supplies, secure your home and leave immediately.

* If you live in a mobile home, you MUST EVACUATE regardless of where you are located in the county.

** Evacuation Zones & Shelters

Using Your County Map

1. Locate where you live and work on the map.

2. Evacuation zones are color coded to indicate evacuation level:
   - Level A: Evacuate red areas and manufactured home residents
   - Level B: Evacuate red and orange areas and all manufactured home residents
   - Level C: Evacuate red, orange, yellow and green areas and all manufactured home residents
   - Level D: Evacuate red, orange, yellow and green areas and manufacturing facilities

3. Special Needs Shelters

Shelters do not open in a certain order, so residents with questions about which shelters are open should call the public information center. Special needs shelters are pre-registered.

Contact your county emergency management center for more information.

SHELTER INFORMATION – Refer to Map

SHELTER INFORMATION

Located where you live and work on the map.

HURRICANE THREAT

- The colored areas on the map are vulnerable to storm surge. Storm surge is produced by water being pushed towards the shore by the force of the winds surges inland and then recedes. This is a life threatening situation for anyone.

- Storm surge is vulnerable to storm surge. Storm surge is produced by water being pushed towards the shore by the force of the winds surges inland and then recedes. This is a life threatening situation for anyone.

- If you are in a mandatory evacuation area, or live in a mobile home, you MUST EVACUATE regardless of where you are located in the county.
