Situation

Debris collection is underway in **coastal** Hernando County. Reminder of information posted yesterday:

- Residents are asked to place any storm-generated debris on the public right-of-way. Per our debris contractor, please set out debris for the first pass no later than **Monday, September 12, 2016**.
- The public right-of-way is the area of residential property that extends from the street to the sidewalk, ditch, utility pole, or easement. Do not place debris on the roadway. Keep vegetative debris (woody burnable debris such as limbs and shrubbery) separated from construction and demolition debris and white goods (refrigerators, washers, dryers) as they will be collected separately. Bagged debris should not be placed on the public right-of-way; only loose debris will be collected.
- Do not place near water meter, fire hydrant or any other aboveground utility. Only debris placed on the public right-of-way will be eligible for collection until further notice.
- If all debris is not picked up during the initial pass, please continue to push remaining debris to the right-of-way for collection on subsequent passes. Household garbage will be collected by your normal service provider on usual collection dates.

American Red Cross

The American Red Cross is conducting human needs assessments in the coastal areas of Hernando County today.

Unlicensed Contractors

All Hernando County residents need to be wary of unlicensed contractors. Unlicensed activity occurs when an individual who is not licensed by the State provides or offers to provide services that require a license in the State of Florida. Contractors from out of state will often travel to areas with storm damage to take advantage of the large amount of repair work. Unlicensed activity is illegal and during a state of emergency declared by executive order of the Governor, the penalty for unlicensed activity elevates from a misdemeanor offense to a third degree felony.

Contact the Hernando County Building Department at 352-754-4050 to report unlicensed contractors. A list of contractors licensed to work in Hernando County can be found at the Hernando County Building Department website. www.hernandocounty.us/bldg

RECOMMENDED ACTIONS

- Residents are reminded to be aware of possible hazards as a result of the storm, such as loose or dangling tree branches, damaged utility lines, tripping hazards, dislocated wildlife, hazardous materials, and submerged sharp-edged debris.

Contact the Emergency Operations Center with questions during normal business hours of 8:00 a.m. to 5:00 p.m.
