**DEBRIS COLLECTION UPDATE**

Hernando County's debris contractor continues to collect storm debris throughout coastal areas in the wake of Hurricane Hermine. Completion of the first pass is anticipated by the end of this week.

Final preparations are being made for the second and potentially final pass for debris removal. **As soon as possible**, residents should have all storm-generated debris in front of their homes on the public right-of-way (the area of residential property that extends from the street to the sidewalk, ditch, utility pole, or easement) to be eligible for pick-up.

The deadline to set out storm debris is **Friday, September 16, 2016**. Hernando County will not be able to guarantee that debris placed on the public right-of-way after the specified deadline will be removed.

Residents should continue to separate vegetative debris (woody burnable debris such as limbs and shrubbery) and construction and demolition debris. Do not place debris near water meter vault, fire hydrant or any other aboveground utility.

Residents are reminded to be patient during the debris collection process. It may take some time for collection crews to reach your street following the **September 16<sup>th</sup>** deadline for setting out debris.
