## What is SIMS?

*“The safety of our most vulnerable citizens is one of our top priorities.”*

*Sheriff Al Nienhuis*

The Hernando County Sheriff's Office is dedicated to the safety and security of all residents of Hernando County.

The Site Information Management System is data collected and attached to a specific address. Information collected is displayed every time a public safety agency is dispatched to the address.

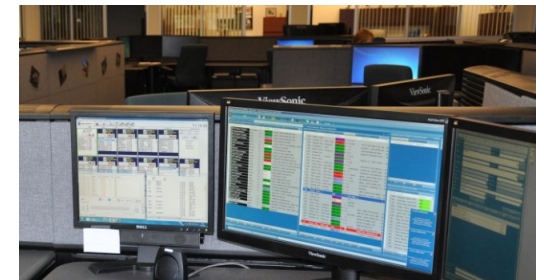

If the information provided is considered exempt or confidential, that information will not be released in the event of a public records request.

## What type of Information?

- House key locations
- Key holder information
- Caregiver and/or next of kin information
- Gate codes
- Anyone in home w/serious medical issues (heart, stroke, etc.)
- Anyone in home w/mental illness (Persons name, diagnosis, etc.)
- Wanderer information (name, physical description, vehicle description, etc.)
- If there is a diagnosis of Alzheimer's or dementia, and if so, name / description of the individual
- Directions to the home if it is difficult to locate
- Large medical equipment notifications (example: 300 lbs. of liquid oxygen in the garage)
- Hazardous material notifications (chemicals, ammunition, etc.)

## How do I add Information?

To have information added to your address, please contact the Communications Center at 352-754-6830. Most information will be displayed the same day.

The person submitting the information must provide a telephone number so the information can be updated yearly.

**\*\*Please remember any specific medical needs will be evaluated by Medical Personnel.\*\***
